top15

Please use this sheet to list the 15 song titles and artists that are most important to you. The music placed on the Top 15 are ***in addition*** to the selections made on the planner sheets and do not need to come from our provided song list.

Every attempt will be made to include these titles in the music collection for your event. At your function, the music designer will do his/her best to incorporate the Top 15 songs at times that are the most appropriate for their style.

Please indicate any special instructions or dedications directly below the song title.
